***DEFEAT Bill 23-07!***

***The Defective Anti-Discrimination  
Gender Identity Bill***

***www.NotMyShower.net***

The recently enacted Montgomery County Gender Identity Law is poorly written and demonstrates how out of touch the County Council is with your needs. Instead of enforcing “non discrimination” against belief, freedom of speech, religion and conscience, the new law would actually force acceptance of cross-dressing males as female. Your fines could be as high as \$500,000 for failing to accept a man in a dress as a female or for complaining about indecent exposure when the male undresses right next to a young girl in the female locker room.

Maryland Citizens for a Responsible Government organized a successful referendum petition drive to place this bill on November’s ballot. All who are interested in helping in small or large ways are needed to protect freedom of speech, religion, women, children, and the family.
